

I would like for you to keep the current policy the same which allows satellite radio stations to carry local traffic and weather reports. Competition is what the USA is all about and all the National Association of Broadcasters (NAB) is trying to do is to use politics to control their competition. Satellite radio is a service I pay for and am willing to do so for the services I receive from it. If I want to pay for my local traffic report and weather then let me pay for it.
